# All-Natural Essential Oils

## IMPROVE ANIMAL HEALTH *Naturally*

SAFE, ALL-NATURAL PRODUCTS

All-Natural Essential Oils, powered by Strong Animals® Technology, brings the power of essential oils at the highest quality in natural solutions for all species as a feed additive. This microinfusion of essential oil increases the amount of droplets per volume and allows for the greatest amount of possible contact in an essential oil. Microinfusion also prevents the product from separating and settling in the gastrointestinal system. Along with microinfused technology is the addition of prebiotic fibers. The prebiotic fibers fuel naturally occurring and digestive enhancing microflora. Combined with the natural anti-microbial properties of the essential oils against disease-causing microbes, this allows for a natural bloom of positive microflora in the gut. By maximizing gut health, this increases the viability of positive gains related to improved digestive function, and a reduction in losses attributed to intestinal diseases.

### ATTRIBUTES

- Microinfused technology to deliver greatest contact, delivery, and quality
- Anti-microbial properties
- No Veterinary Feed Directive (VFD) required
- Non-antibiotic, all-natural, no withdrawal product
