

COMFORTFEEDS™ MICROMUNE

SUPPORT ANIMAL WELLNESS
SAFE, ALL-NATURAL PRODUCTS

Available for: Nursery & Grower Finisher Pigs

ComfortFeeds Micromune is an all-natural Water Soluble Direct Fed Microbial (DFM) plus electrolytes. It's a flavored water soluble probiotic and electrolyte solution to strengthen gut health and promote feed and water intake. Available as two products specifically formulated for **Nursery** or **Grower Finisher** pigs.

FEATURES

- All-Natural solution targeted for times of weaning, transition, and/or enteric stress
- Probiotic strains chosen specifically to improve immune function, gut health, and feed intake
- Has proprietary Extender technology to ensure high probiotic counts through stomach acid
- Electrolytes and flavoring agents to promote and maintain animal hydration during stress events
- Ideal for enteric recovery and stabilization after antibiotic usage

DIRECTIONS

- Use during and after times of stress to promote and maintain gut health and water intake
- Mix 1 packet (300 grams) with 1 gallon of water to make 1 gallon of stock solution.
Use at a rate of 1:128.
- Use for a minimum of 3 days
- Mix new stock solution every 24 hours

This microbial product was produced in a facility certified in the American Feed Industry Association's Safe Feed/Safe Food Certification Program; for details go to: www.safefeedsafefood.org.
